

Key Speaker: *Jan Koller*

Short CV: Jan Koller is group manager at the Fraunhofer Institute for Manufacturing Engineering and Automation IPA. After completing his studies he began his career as a research assistant at the Chair of Manufacturing and Remanufacturing Technology at the University of Bayreuth. He then moved to the Project Group Process Innovation of Fraunhofer IPA in Bayreuth, where his team is working on current challenges in remanufacturing and jointly developing efficient, innovative and sustainable solutions.

Main research and industrial topics: Supporting companies in the introduction of remanufacturing in new industries and in the analysis of new components due to the change in the automotive industry towards e-mobility as well as the optimization of existing processes.
