

## Key Speaker: Dr. – Ing Daniel Koehler

**Short CV:** Daniel C. F. Koehler is a German business engineer and holds a doctorate degree in engineering. Since 2020, he is head of the research and development department of the business unit Truck and Trailer Components of the BPW Bergische Achsen KG. For today, he has more than ten years of experience in higher technical management positions, e.g., he was seven years in charge of the Remanufacturing business of Knorr-Bremse Systeme für Nutzfahrzeuge GmbH. For more than 15 years, Dr. Koehler is involved in the Remanufacturing business as well as the automotive industry. Since 2017, he also has the honour to be the elected Chairman of the international non-profit association Automotive Parts Remanufactures Association Europe AISBL (APRA Europe). While he is regularly invited for holding speeches and presentations with a focus on technical management, business development and evolution, Dr. Koehler also irregularly publishes expert articles.
