

Key Speaker: Dr. Avv. Francesca Politi

Short CV: Francesca Politi is an Italian corporate lawyer and President of the family-run company OVER Machining Centers Europe. In the last few years her focus has been on the continuous improvement of the complex Remanufacturing processes applied to Machining Centers that work tough alloys (for Aerospace, Automotive and Mechanical Industry), which constitute OVER's core business.

Firmly believing in cooperation among complementary companies to achieve ambitious goals by pooling together high competencies, she is the promoter of a project shared with other leading companies in the Remanufacturing and Mechanical sectors, aiming at growing in EU.

Main research and industrial topics: The hardest challenge is to transform something already existing in something which is not just new, but also innovative: to this extent our mission is not just to replace components but also to develop and implement innovative and sustainability-driven technologies.
