Welcome!

Born from the adaptation of Ted Dewan's passionate books, Bing celebrates the chaotic, joyful and disordered reality of when you are three years old.

Just when Bing thinks he understands how life is going, the situation could change immediately and knock him out. But it's okay, it's always okay.

As his partner Flop, who takes care of Bing, says: "Don't worry Bing, it's not a serious thing!"

Bing's stories are simple but full of drama: the daily micro-dramas that all children and adults will recognize, whether it's about dropping an ice cream or losing your favorite toy.

Bing is a TV series for preschoolers played daily on the Rai YoYo digital channel and on the DeA Junior pay-TV channel.
