## About

Flora's Room is a production company based in Sassari, Sardinia, Italy.

We are a young company active in the live-action and animation fields that produces short films, develops feature films and series, music videos, and provides services for advertising. We work with different techniques, including paper cut-out and stop motion in general.

We believe in the power of filmmaking as an educational and awareness-raising tool.

---

## **Collaborations**

---

### **Emergency ONG onlus**

05/2022, Sassari, Italy

The first Flora's Room event with EMERGENCY and Diritti al Pride occurred in Sassari on Saturday, May 28.

With children 8 to 12, we led the class in the work of creating their hero, a design process during which the children created characters that reflected what, for them, are the characteristics of a hero today (we recommend the bottle of plastic that fights for the environment!).

With children 4 to 7, we gave ourselves crazy joy with colors, trying to understand the mission of EMERGENCY.

### **Emergency ONG onlus**

12/2023, Sassari, Italy

The second Flora's Room event with EMERGENCY occurred in Sassari on Wednesday, December 20, at the Santa Maria di Pisa clinic.

With children 6 to 11, we celebrated the festivities with food and gifts and led the class in creating Christmas decorations.

On the side, we also decorated a banner for the "Ceasefire" protest to ask for an immediate stop of bombing over the Gaza territory.
