

Operative Manual for Silicon Metal Process

**“Shyti Consulting” Company
Eng. Shyti Artan**

Eng. Shyti Artan

1.1 World production and price trend of silicon	5
1.2 Use of silicon	9
2.0 Production process of silicon metal	10
2.1 Raw Material	12
2.2 Furnace and electrical system.....	12
2.3 Cleaning system	14
3.0 Energy analysis.....	15
3.1 Energy into the process.....	16
3.2 Energy from the process.....	20
4.0 Chemical reaction.....	21
5.0 Process criteria for optimization of silicon metal.....	26
5.1 Specification of raw materials for silicon	28
5.2 Process control	31
5.2.1 Control of carbon balance.....	31
5.2.2 Correct selection of raw materials	33
5.3 Furnace control power.....	35
5.3.1 Current voltage ration	
5.4 Electrodes.....	37
5.4.1 Electrode practice	
6.0 Charging, stoking operation and procedure.....	41
7.0 Tapping process in Silicon metal.....	43
ANNEX 1 Stocking process and environmental aspect in Silicon Metal.....	47
