

Key Speaker: *Gianmarco Griffini*

Short CV: Gianmarco Griffini is an Associate Professor of Science and Technology of Materials at the Department of Chemistry, Materials and Chemical Engineering “Giulio Natta” of Politecnico di Milano (Italy), where he received a MSc degree in Chemical Engineering and a PhD degree in Materials Engineering. He has held visiting positions at University College London (UK), University of California-Berkeley (USA), and University of Castilla-La Mancha (Spain).

Main research and industrial topics: bio-derived and biodegradable polymers/composites for sustainable manufacturing; stimuli-responsive polymers for advanced manufacturing; advanced recycling processes for polymers/composites; materials and devices for light harvesting and conversion, and for energy storage. In these areas, he is/has been involved as scientific coordinator in several regional, national and EU funded projects, and as responsible for research contracts with the private sector.
