

Key Speaker: *Maxime Furkel*

Short Bio:

Maxime Furkel is a senior executive, with 25 years' experience in the high-tech sector. He is head of Government Affairs EMEA at Lexmark and one of the co-founders of the European Remanufacturing Council which has the aim of making remanufacturing a normal part of the product life cycle. Maxime set up Lexmark's Government Affairs office in Brussels and is working on sustainability, corporate responsibility, and internal market issues.

He advises Lexmark on several Horizon Europe projects, the EU research & innovation framework programme to identify and develop new circular economy business solutions, as part of the European Green Deal.
