

## Key Speaker: *Dr.-Ing. Andreas Viehmann*

**Short CV:** Since 2021, Andreas Viehmann is Innovation Manager at EDAG Group. He is responsible for the innovation topics on electric drives and energy storages with a focus on technologies for tomorrow's sustainable mobility. Andreas previously obtained a PhD in the area of electrified drives and was group leader for Vehicle Systems at the Institute for Mechatronic Systems at TU Darmstadt.

**Main research and industrial topics:** Andreas works on various projects in the context of electric energy storages. However, 2nd life solutions in a stationary context are also becoming more and more important in the context of the circular economy. As part of the DigiPrime project, he led the development of a 2nd life home storage system to validate the DigiPrime platform with corresponding services for battery systems.
