

Key Speaker: Dr. *Francesco Perotti*

Short CV: Francesco Perotti earned his Ph.D. in Mechanical Engineering from Politecnico di Milano, specializing in advanced manufacturing processes. His academic achievements include publications in international journals, with a focus on experimental research, data analysis and modelling.

Main research and industrial topics: Francesco Perotti is a skilled Research Engineer with expertise in engineering and manufacturing processes. He has contributed to research projects within the MUSP consortium, focusing on innovative solutions for manufacturing companies. Francesco specializes in recycling and remanufacturing processes for composite materials, along with advanced manufacturing techniques such as additive manufacturing and abrasive waterjet cutting.
